

Protective Bags

A cost effective and practical solution for the protection of equipment in transit, storage and use

Original Equipment Manufacture

CP Cases manufactures a wide range of bags and covers for Original Equipment Manufacturers (OEMs), to provide a cost effective and practical solution for moving, deploying and protecting equipment and instrumentation.

Our products are widely used in the medical, defence, electronics and broadcast industries for a variety of applications.

Whether protecting expensive broadcast equipment from rain showers at Wimbledon, to sales presentation packs for artificial knee joints, or operational bags for aircraft testing equipment; CP Cases can provide a solution.

Our UK-based design team draws on years of experience with protective textiles to create the most cost-effective bag for your needs. Many options available:

- Velcro or heavy duty zip fastening
- Handles and/or shoulder straps
- Single skin or foam padded
- Rigid linings for optimum protection
- Foam packs specifically designed and machine routed for superior cushioning
- Screen printing or embroidery of company names and logos

Bags have many advantages for the protection or presentation of your equipment:

- Light in weight
- Cost-effective
- Small runs and production quantities are equally viable
- Versatile and easy to tailor for specific applications
- Corporate name can be screen printed or embroidered in chosen place
